

ESHA GAUTAM

React.js & Next.js Developer | MERN Stack Developer

Gurugram, India | +91-8770333172 | eshagautam0@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Frontend-focused Software Developer with 2 years of experience building HIPAA-compliant, real-time healthcare and SaaS applications using the MERN stack. Experienced in developing scalable web applications and self-driven full-stack projects with AI integration, payment gateway integration, and modern AI-assisted development tools to accelerate development.

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native, Redux Toolkit, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, WebSockets, MongoDB, MySQL

Languages: JavaScript (ES6+), TypeScript

Tools: Git, GitHub, Postman, Jest, Jira, Figma

AI Tools: Cursor AI, GitHub Copilot, Antigravity, Google Gemini, ChatGPT

WORK EXPERIENCE

Software Developer

Feb 2025 – June 2026

The Algorithm

Remote

- Engineered scalable real-time healthcare applications using React.js, React Native, TypeScript, and WebSockets, improving communication efficiency and reducing response latency by 30%.
- Architected reusable frontend modules, secure communication workflows, and rendering optimizations, improving application performance by 25% while maintaining HIPAA-compliant data security.

Software Development Trainee

Oct 2024 – Jan 2025

Antino Labs

Gurugram, Haryana

- Developed responsive and reusable UI components using React.js, Redux Toolkit, and Tailwind CSS, improving frontend consistency and user experience across multiple modules.
- Streamlined REST API integration and frontend state management workflows, reducing redundant API calls and improving application maintainability by 20%.

Software Developer

Jun 2024 – Oct 2024

Freelance

Remote

- Designed and delivered a SaaS-based equipment and employee management platform using Next.js and React.js with scheduling, task tracking, and responsive management interfaces.
- Strengthened platform scalability and usability by implementing role-based access control, API integrations, and optimized frontend workflows, improving operational efficiency by 25%.

PROJECTS

AceSEO AI – AI-Powered SEO Rank Tracker & Website Audit Platform

React.js, TypeScript, Node.js, Express.js, MongoDB, Playwright, Google Gemini AI, Stripe

- Built a full-stack SaaS platform for SEO audits, keyword rank tracking, competitor analysis, and AI-powered SEO recommendations.
- Integrated Google Gemini AI, Playwright, and scalable REST APIs to automate SEO analysis and generate actionable optimization recommendations.
- Implemented JWT authentication, email OTP verification, Stripe subscriptions, and responsive analytics dashboards for a production-ready SaaS application.

OpportuNest – Full-Stack Job Portal Platform

React.js, Tailwind CSS, MySQL, Sequelize, Clerk, React Hook Form, React Router

- Developed a role-based job portal that enables candidates to search, save, and apply for jobs while allowing recruiters to manage job postings and hiring workflows.
- Built secure authentication, resume uploads, protected routes, application tracking, and advanced job search with company and location filters.
- Integrated MySQL with Sequelize ORM and reusable React components to deliver a scalable, responsive, and cloud-based application.

EDUCATION

Bachelor's Degree — 81%

2022

KACC, Rani Durgavati Vishwavidyalaya

Sharpener Tech Bootcamp — Frontend Development

2024
